

KIILA CARPETS
by IIIK

The KIILA carpet's design is based on the relation between shiny metallic and delicate paper yarns. Kiila has a surface of stripes which give a feeling of moving forward along.

KIILA can be used as wall to wall carpet or as ready made rugs with artificial leather or cotton finishing. Custom sizes and colours available. Made in Finland.

KIILA

Composition	warp 100% polyester and weft 90% paper and 10% metal: copper or steel
Width (cm)	120-380 (woven 400 cm wide)
Backing	EVAPOLYTEX backing keeps the shape of the rug and prevents it from sliding under the foot. The same material is also used for example in food industry packaging and in the soles of shoes.
Colours	In stock white-copper and black-steel. Other colours with paper yarns are available on request
Care	Regular vacuum cleaning. Remove stains immediately with clean damp cloth. Do not rub. Dry foam or gentle level wash in max. +30°C water with mild detergent and soft brush. Do not soak or rub. Rinse carefully with plenty of water. Extract the excess water e.g. by a roller press. Shape the damp carpet with care. Air dry flat. Do not fold. Professional level washing is recommended.
